Valley Business Machines Inc.
5825 E. Mayflower Ct.
Wasilla, AK 99654

The City of Wasilla is very pleased with the quality, durability and versatility of the equipment leased from VBM. The City currently has more than seven copiers as well as various printers and fax machines that are all utilized on a daily basis and are critical to City business. Thankfully, VBM is located in the Valley thus the rare time when one of the copiers developed a problem, Loren and his team responded immediately to remedy the situation. The bottom line is that these quality machines coupled with excellent service response has assisted the City in saving tax dollars while maintaining the level of efficiency expected by the taxpayer.

Sincerely,

Mr. William A. Miller
Purchasing/Contracting Officer
